

Report of the 5th Exchange of the Comenius Project held in Bojano, Italy

1st Day; 01/12/2012; Saturday

We left Sátão at around four and a half in the morning. We went to Porto to catch the plane that would take us to Rome, but we got there too late, so we rented a van and we went to the Airport of Lisbon to catch another plane.

We landed at Leonardo da Vinci Airport of Rome and we went to the Hotel Argentina, where we would spend the night, in order to unpack.

We had dinner in a restaurant in the center of Rome and, at night, we went to see the Coliseum from the outside.

2nd Day; 02/12/2012; Sunday

We got up early to make the most of our stay in Rome. We had breakfast in the hotel and then we left to visit the city. First of all we went to Saint Peter's Basilica, in Vatican, by underground. After visiting it, we walked around Rome to visit the most famous places we could, such as Trevi Fountain, The Pantheon, the Altar of the Fatherland, Sant'Angelo Castle and so on.

At six o'clock we caught a bus that took all of the different countries' teachers and students to Bojano. When we arrived we were received and hosted by our partners.

3rd Day; 03/12/2012; Monday

On Monday, in the morning, we went to Bojano's theatre where each country's students presented something about their town/city or about their country. In the afternoon we went to ISS Bojano, the school of our partners, to make more presentations related with the "Photography as a Pedagogical Tool" Comenius/eTwinning project and then we prepared a table with typical Christmas food from our country and tasted food that the others had brought from their countries.

4th Day; 04/12/2012; Tuesday

On Tuesday we left Bojano at six a.m. to go to Pompeii and Naples. In the morning we visited the ruins of the city of Pompeii and in the afternoon we visited Naples, which is a very dirty city. There we had dinner in a typical Napolitan pizzeria. After having dinner we returned to Bojano.

5th Day; 05/12/2012; Wednesday

On Wednesday, in the morning, we had classes with our partners and had also a Physical Education lesson, with some of the students of the Italian school. In the afternoon there was an exhibition of some photos related to a competition that was held in Poland, called “Learning Folk Culture from the Past”, and to proverbs from each country. There was also a quiz made by Portuguese students from class 11th C: “Who wants to be a Language Genius?”.

6th Day; 06/12/2012; Thursday

On Thursday we went to Caserta that is a city close to Naples. There, we visited the Royal Palace of Caserta that is a bit like Versailles. It has an enormous garden in the back. On our way back to Bojano we stopped in a shopping center. In the evening we went to a restaurant in Bojano where a party with all the students, teachers and families took place. We listened to some songs and watched some dances exhibited by the students of the European teams.

7th Day; 07/12/2012; Friday

On Friday all the teams left Bojano except for the Portuguese team, ours. We stayed with our partners and some of us went to the mountains near Bojano and in the afternoon we went to Campobasso which is the closest city to Bojano. We returned to Bojano where we had dinner in a pizzeria.

8th Day; 08/12/2012; Saturday

We left Bojano at 7 o'clock and went to Rome to catch a plane to come back to Portugal.
